

Marion Methodist Church is a growing congregation located in Marion, Iowa that is looking for an individual with a technical background to provide support of the audio, video, and lighting systems used within the church and assist in the development of Marion Methodist's Digital Ministry.

Position: Technology Associate

Hours: Part Time (20 hours per week)

Desired Employee Qualities:

- Have a personal faith in Jesus Christ rooted in the Scriptures.
- Be a person of integrity, keep confidences, receive supervision and feedback while striving to demonstrate Christ-like character.
- Care for and about people and the growth of their faith and discipleship.
- Enjoy working with a high functioning collaborative team.
- Be committed to excellence, faithful to the church and willing to work hard to grow the ministry to which you are appointed.

Responsibilities:

- Effectively program video, projection, and lighting content for all worship services
 - Includes collaborating on creative vision and programming aspects of the production
- Maintain, troubleshoot, and repair Audio/Video/Lighting equipment yourself or in coordination with our vendors
- Implement and updated new hardware and software as applicable

Qualifications:

Possess proficiency or willingness to gain proficiency in the following:

- ProPresenter (presentation software)
- Adobe Suite (video editing software)
- Jands Vista (lighting software)
- Pro Video Player (environmental projection software)

Other needed skills and abilities

- Ability to work independently and in a team environment
- Ability to quickly discern issues and move to solutions with ease
- Interest or passion to stay current on A/V/L news and trends
- Excellent written and verbal communication skills
- Must be able to lift 50 pounds and be comfortable working from ladders, scaffolding and elevated platforms
